2027 CONFERENCE PROGRAMS

The Protein Science and Production Week

Connecting Protein Scientists to Drive Research & Innovation

SYMPOSIA & TRAINING SEMINARS JANUARY 18

CONFERENCE TRACKS JANUARY 19-20

CONFERENCE TRACKS JANUARY 20-21

 Expression to Production	(Re) Discovering Protein Expression Platforms	Recombinant Protein Production Part 1	Recombinant Protein Production Part 2
 High-Throughput Systems	Predictive Protein Production	Automation in Protein Discovery	Tools for Purification & Quality
 Developability & Characterization	TS: Developability Prediction, Analysis & Mitigation	Analytical Intelligence	Biophysical Methods & Models
 Engineering Novel Biologics	Display of Biologics	Multispecifics Engineering & Design	Emerging T Cell Engagers
 Integrating Peptide Science	Peptide Drug Hunting	Peptide Discovery	Peptide Development
